## PROJECTS

### Hostel management system, 3 Months

*- Developed a highly efficient hostel management system within a duration of 3 months, resulting in improved workflow and increased operational productivity by 30%. This achievement showcased my ability to effectively deliver complex projects within specified timelines while meeting quality standards.*

*- Implemented key features and functionalities in the hostel management system, such as room allocation, billing, and attendance tracking. These enhancements resulted in streamlined processes, enabling efficient management of hostel operations and contributing to enhanced user experience.*

*- Collaborated with cross-functional teams to gather project requirements, design system architecture, and successfully delivered the hostel management system. This collaborative effort facilitated smooth operations and seamless communication amongst stakeholders, ensuring effective implementation of the system.*
